### DESCRIPTION:

Enhance inventory control and reduce consumption with these DURHAM electronic locking Access Control Cabinets. Access

controlled lock gives up to 250 users unique identification numbers and/or HID proximity cards. Records up to 1500 access attempts including who entered, date, and time. Data can be downloaded to a computer with included software. Durable 14-gauge steel construction with bolted shelves.

Recessed doors feature heavy-gauge leaf hinges to prevent sagging. Cast steel padlock handle. 6"H legs can be lagged to the floor for extra stability. Textured gray powder coat finish.
