

Respiratory Protection

Respiratory

All of us emit aerosols when we speak, breathe, sneeze, or cough. When a person infected with a virus emits the infected particles, they can be inhaled by those around the infected person into the trachea and lungs where they lodge in the respiratory tract and initiate infection. Viruses – such as Ebola – can also be transmitted person to person from infected respiratory droplets travelling to another person as a form of contact transmission.

3M™ DISPOSABLE RESPIRATORS

3M™ Disposable Respirators offer respiratory protection for different environments.

Model	Description
S4651475	8210 N95
S4651481	8511 N95
S4651482	8271 P95
S4B314967	8200/07023(AAD) N95
S4B314715	8577 P95

SAFETY ZONE® DISPOSABLE MASKS

Nuisance Dust Masks help protect against dust and particles such as cement, sand and pollen while allowing easy breathing and speaking.

Model	Description
S4954219	Nuisance Dust Mask

MOLDEX® DISPOSABLE RESPIRATORS

Moldex® respirators can be worn comfortably for longer periods, increasing compliance while decreasing cost.

Model	Description
S4B312170	2200 Series N95
S4B312025	1500 Series N95
S4B312172	2300 Series N95
S4B312213	2360 Series P100

SAFETY WORKS® DISPOSABLE MASKS

Dust and Pollen Masks reduce exposures to large dust particles, such as certain types of pollen.

Model	Description
S4B586617	Dust and Pollen Masks

3M™ CARTRIDGE RESPIRATORS

3M™ cartridge respirators provide protection against inhalation of hazardous materials in laboratories, pharmaceutical, chemical and manufacturing facilities.

Model	Description
S4B314691	6300 Series Half Facepiece
S4B722241	6200 Series Half Facepiece
S4795245	7500 Series Half Facepiece
S4B313199	52P71 Half Facepiece

NORTH SAFETY® CARTRIDGE RESPIRATORS

North Safety® cartridge respirators provide protection from harmful fumes, gases, dusts and other hazardous environments.

Model	Description
S4B311708	7700 Series Half Facepiece
S4B313316	5400 Series Full Facepiece
S4B313317	5500 Series Half Facepiece
S4B314778	7600 Series Full

MOLDEX® CARTRIDGE RESPIRATORS

Moldex® 8000 Series Respirator conforms to the contours of your face, seals comfortably and stays sealed, even while talking.

Model	Description
S4B311929	8000 Series Assembled Large
S4B311893	8000 Series Assembled Medium

SAFETY WORKS® CARTRIDGE RESPIRATORS

Safety Works® Respirators are used for construction sites, workshops and paint shops.

Model	Description
S4B586604	Half Facepiece Toxic Dust
S4B586603	Half Facepiece Multi-Purpose
S4B586602	Half Facepiece Paint and Pesticide
